Plant & Equipment | Asset Schedule

02 / Asset responsibilities and valuation

Use the same asset references as page 1. Complete the additional details below for each item and retain both pages together.

Asset 1 / Additional details

Owner / lessor / lender and interest

Hire period / weekly hire / contractual liability

Cover required, security, maintenance, transit, breakdown and special exposure notes

Asset 2 / Additional details

Owner / lessor / lender and interest

Hire period / weekly hire / contractual liability

Cover required, security, maintenance, transit, breakdown and special exposure notes

Asset 3 / Additional details

Owner / lessor / lender and interest

Hire period / weekly hire / contractual liability

Cover required, security, maintenance, transit, breakdown and special exposure notes

Valuation notes

State the proposed value and valuation basis for every asset: for example, new replacement cost or another basis requested. Identify whether freight, import duty, installation and recoverable / irrecoverable taxes are included. Insurers must agree the valuation basis and sums insured.

Valuation assumptions, supporting report reference and currency conversions used

These entries are information for quotation. They do not confirm an agreed value, acceptance of contractual liability or the scope of insurance cover.
